

COVER YOUR TRACKS™

Fit the Pieces—Hide the Trail!

Cover Your Tracks™ is a Mind Challenging Game designed for single players. Have fun and build your confidence as you move from Beginner to Expert challenges. When you solve a challenge, YOU WIN!

Your Goal:

Cover the footprints on your Challenge Card using the four Cover Your Tracks™ game pieces. All four pieces must fit within the playing grid for a challenge to be solved.

To Play:

1. Pick a Cover Your Tracks™ Challenge Card and place it in the game tray. We recommend beginning with challenge 1 and working your way up.
2. Look for the highlighted area on the card containing footprints. Using the four colored game pieces, cover this area on the Challenge Card.
3. Once the highlighted area containing footprints is covered and all four pieces completely fit into the game grid, YOU WIN!

Remember:

1. Footprints must be completely covered and all four pieces must fit into the game tray.
2. All game pieces must lie flat within the game tray. You may place your pieces at an angle if you wish.
3. Pieces must fit within the game tray, they cannot overlap the frame.
4. There are a whole lot of combinations to try —the four pieces can fit into the frame in a number of different ways.
5. Some challenges have many possible solutions while others have few or only a single solution. You will find a solution for each challenge listed at the end of the instruction book.
